interface:

• Order of reflections (5?)

• Mirror # (1-4, could extend)
↳ then need placement

• Observer placement

• Room size/grid (3x3 etc)

• Obj placement

• Obs placement

(• selected virtual room/object)
(• visibility check) →

interactive:

• Mirror #

• Obj & obs placement

• View obj in view (sens)
placement (✓)

• ray line draw (✓)

• fold order options
